

SYNTONIZATION TO THE DIVINE RAY AND THE COLLECTIVE SOLAR VEHICLE OF LIGHT

ACTIVATION PROTOCOL

In order to prepare ourselves for the Dimensional Shift and stabilize ourselves in advance at the frequencies of the 12 White Light Domes that will host the People of Light, Master Omraam Mikhaël Aïvanhov proposes that we participate, weekly and collectively throughout Mother Gaia, in the “Syntonization to the Divine Ray and the Collective Solar Vehicle of Light” meetings.

The 12 Domes are the cores of the Christed Crystalline Grid of the New Dimension that surrounds the planet, where we will be transported in the moments of dissolution/reconstruction of the Earth, when we enter the electromagnetic null zone. The Crystalline Grid itself is the Solar Vehicle or “Collective Merkabah” to which we will connect to fine-tune and adjust our vibration to the White and Golden Light of the Solar Angels, the Archangels, the Order of Melkhitsédék - Mikhaël - Enoch and the entire Brotherhood of Light and Love that accompanies us, awaits us and welcomes us.

The meeting consist of three parts. In the *first part*, we will pronounce the formula and prayer out loud, softly, or inwardly, focusing on the welcoming space of the heart and the Light at the top of the head. We will first recite the formula three times and after a short pause, the prayer three times. In the *second part*, we will place our hands on our chest and ignite the inner devices of the Solar Body to receive the Divine Ray. In the *third part*, we will bring down the Holy Spirit through our Heart, see Mother Gaia surrounded by the Golden Light, and join the Collective Solar Vehicle of Light.

WHEN: Mondays at 21:30 Barcelona time / 14:30 Mexico time.

DURATION: Between 30 minutes and 1 hour, depending on each person's abilities.

*Sweet Father of All Lights, Source of Infinite Life,
with Your blessing we join the Heart of the White Fire,
the Master Omraam Mikhaël Aïvanhov, the Order of Melkhitsédék
and the entire Brotherhood of Light and Love in the Heavens and on Earth!*

*To sintonize to the Divine Ray and the Collective Solar Vehicle of Light,

Oh Divine Spirit! May we be humble and pure in heart to receive
Your White and Golden Light that resurrects all our cells!*

*May Mother Gaia ignite with the Fertilizing Celestial Fire
and may all its corners be filled with the Radiant Golden Light of the New Epoch!

be sealed in all the hearts of the True Israel, your People!*

*So be it! x3
For the Glory of God! x3
Amen, Amen, Amen and Amen.*

PART 2

- 1) Place the left hand on the right chest with the fingertips touching the right collarbone and then the right hand in the same way on the left chest. Install the Golden Tetrahedron formed by the descending triangle (the vertices are the two hands on the collarbones, the tip of the sternum, and the point located behind the back between the shoulder blades). Enter the Sacred Space of the Heart. Rest/receive for a few moments.
- 2) We place the Golden Pyramid above our head (ascending triangle) and feel how from the upper vertex the Golden-Iridescent and Opalescent White Light descends, entering through the Fontanel, filling us from head to toe and surrounding us. We enter the Holy Space of the Crown. Rest/receive for a few moments.
- 3) We focus on the Triple Fire of the Solar Body: the Triangle of the Sacrum, the Tetrahedron of the Heart and the Crown of the Head as we feel the Divine Ray piercing the Sushumna/Central Channel releasing the 7 Seals. We enter the Holy Space of the Celestial Fire. Rest/receive for a few moments. Hands are free when we finish this part.

PART 3

- 1) We place Mother Gaia in the center of the Golden Tetrahedron and, seeing her at the same time before us, we bathe her in the Source of Infinite Love that emanates from the Holy Spirit through our Heart. We feel how the Sweetness, the Light and the Warmth fill and overflow our Heart and the planet. We remain for a few moments welcoming Mother Gaia and the Holy Spirit into our Heart.
- 2) We see Mother Gaia surrounded by the Golden Crystalline Aura/Network that bombards her from all directions with the Golden and White Particles of Divine Light. We remain for a few moments watching the Bombardment of Light upon the planetary globe.

- 3) We ourselves join the Crystalline Network that ignites with greater force and activates the 12 Domes of White Light, becoming the Collective Solar Vehicle where we are all already connected to the 5th dimension and united with the Archangelic Forces, the Elders, the Elohim and all the brothers and sisters of the Brotherhood of Light and Love. We remain for a few moments inhabiting the Domes of the Collective Solar Vehicle and we feel accompanied and surrounded by the Loving Presence of the entire Christ Family.

Some will do the 3 parts in a few minutes and will remain most of the time in Pure Presence, on the other hand, others will extend the proposed steps and approaches for a longer time or for the entire Syntonization. It makes no difference. The most important thing is to maintain the "Loving Quality of Radiation" at all times, to let yourself be guided internally by the fluidity of the Light and to remain open to the guides/directions of the Living Light. If we do not have ease in visualizing the steps of part 2 or 3, we will simply feel them in our Heart.

When we finish the three parts and until the moment we finish the Syntonization, we will remain quiescent in the Inner Silence and listening to the Omkar Sound, with our attention fixed on the Concentrated Radiation of Light that falls on us and on Mother Gaia.

We will remain in a state of communion, receptivity and fusion with the Love and the Golden Light of the Collective Solar Vehicle and of all the Fraternity that accompanies us in this selfless service to Life. We will merge in the Fiery Love of the Christ that fills us to overflowing, heals us and renews us until the moment we complete the Syntonization.
